

## Tutorial for week 4 (Jan 28-Feb 1, 2002)

January 29, 2002

The following questions will be considered during the tutorial sessions on Wednesday...

- T4Q1:** Given the frame **.frm** containing a canvas and a quit button, give sensible names for the canvas and the button.
- T4Q2:** Modify **SimpleProg.tcl** to have an extra button **clear** above the **quit** button which clears the date display.
- T4Q3:** Modify **SimpleProg.tcl** to have an extra button **clear** to the left of the **quit** button which clears the date display.
- T4Q4:** What is the effect of the following tcl command?    **set a [exec ls]**
- T4Q5:** What is the effect of the following tcl command?    **set a expr 3 + 4**
- T4Q6:** Write a minimal Tk application which puts up a single **File** menu with a **Quit** item in it.
