# A. GUIDELINES FOR INTERPRETING THE REPORT

The teacher evaluation report is for developmental purposes and is meant to help identify strengths and areas for improvement. Please consider the following recommendations that will aid in interpreting the results:

- 1. Examine the report by taking note of patterns in order to consider how best to act on the feedback your students have taken the time to provide. Use the reflection section at the end to reflect upon how you might act on the feedback.
- 2. These evaluations stem from student perception and thus constitute one source of evidence among others as to the quality of your teaching. Any response to the feedback should be based on the most representative results rather than on outlying responses.
- 3. Upon getting a general sense as to what has gone well, and which areas may require attention and improvement, it is important to drill down to the related questions. These questions can help guide future action if feedback from students suggest areas for improvement.
- 4. Keep both the likert scale and written comments in mind while reading through the report. High scores (4+) suggest student consensus indicating a strength. On the other hand, low scores (2-) should be considered as an area that requires immediate developmental focus based on student feedback.

He managed to explain certain tough concepts with great depth
He uses demonstrations to supplement the lessons
Very engaging in his explanations. Always gives interesting jokes in lecture.
Engaging
funny
Engaging
Prof Aaron's lectures are very engaging.
Makes the lectures fun
Explains concepts well, and is quick to respond to queries, and made lectures very interesting and entertaining
He tries his best to make lectures interesting and engaging. He also responds to our queries via Telegram which is especially helpful during the examination period.

I can feel the passion throughout his lecture and he makes it a point to keep the students entertained.

Professor Aaron has a very positive attitude and brings joy to people attending his lessons. His humor and jokes keeps students paying attention during his lectures. Since prof Aaron does not come from a math background, he tries to teach in a way in which non-math students would find engaging through various activities during lectures.

Good

Professor's explanations of key concepts during lectures are concise and lively, complementing his slides which are understandable and thorough in explaining key concepts in CS1231S, with clear demarcations for important definitions, sample proofs and theorems.

Comments He is thorough and keeps the class interesting with his fantastic explanations and relevant examples that make hard concepts seem easy to grasp. He is extremely passionate about the subject and his lectures are extremely engaging. He is really good at explaining difficult concepts and coming up with ways to make the lecture entertaining Delivering the content very engagingly, keeping students interested even when covering difficult concepts, using relatable examples to communicate content, paying much attention to students' abilities and reactions to content and adapting accordingly NA Very clear and detailed oriented. Makes lectures fun and exciting I like his humour, makes me excited to join his class however the mods are super duper hard to understand and handle for me . Prof Aaron is very experienced teacher, he understands where students to not understand the materials and will go slower to teach them in a simpler way. Very interactive and tries his best to make things clear Give mathematical mindset The best lecturer. Very engaging with students. Lessons are never boring although the course is difficult. Makes lessons fun and goes extra mile to create materials to make sure students understand. mildly humorous, is merciful with exam questions (as opposed to tutorial questions) One can tell that Prof Aaron is a very seasoned lecturer for this course, owing to his many years of experience. He never fails to deliver his lecturers in an engaging manner. Additionally, Prof Aaron is someone who cares for the wellbeing for his students by adjusting his teaching pace in response to student feedback. the topics are abstract and hard, but he can convey the content more interestingly. Very engaging, fun lectures, teaches well. He teaches clearly on the topics. Smart. very funny and explains the concepts very well. breaks down problem into simpler questions for better understanding. very engaging He really engages people during lectures, and explains concepts in a very fun way. Very passionate about content and also quite humorous his enthusiasm He explains difficult topics well, and gives examples that keep students engaged during lectures. nil prof aaron is humorous and interesting he is able to teach and explain concepts really well. ive enjoyed cs1231s more because of him Very hardworking and entertaining teacher, help me a lot in understanding the topic Funny teachings. He is very engaging during lectures, providing a lot examples which enhance my understanding of topics. Sometimes there are very interesting beyond the scope examples which are relevant to the topics. Very interactive during lectures and comes up with methods to make learning hard topics fun. Passionate Aaron is very engaging, and his positive attitude helped me to develop an interest in the topics taught. he is a great teacher he is funny and uses examples during lectures Engaging, funny, really makes me interested and keeps students engaged during his lectures Slides are well put together, a lot of effort goes behind them. Especially when useful cross references are placed directly in the same slide. Prof Aaron is very engaging and makes the lectures very interesting! He also does a great job going through each of the examples and explaining them clearly. Excellent teaching structure, and communication, appropriate pace (depending on the difficulty of the topic covered), very passionate about his teaching, actively tries to make class more engaging with jokes, motivational quotes and 'games'. Very knowledgeable.

very fun and engaging lecturer, includes the right amount of humour and games to keep lectures interesting
Prof Aaron's lectures are incredibly engaging, which makes the tough course content easier to absorb. He's also very encouraging and overall just very passionate about the subject
Great at explaining core concepts and making the course engaging and fun to learn even though its steep difficulty
Able to relate the concepts to real life scenarios
Very passionate for the subject and hence, his teaching is very enjoyable to learn from. He also makes the subject more interesting through real-world relations to the subject matter.
His lectures are engaging
Lectures are very engaging and as such highly enrich my learning experience, jokes are always highly appreciated (even if no one seems to laugh)
fun

Interesting and engaging lectures

His lessons are extremely engaging, involving the students in their own learning and making it fun and interesting. Although certain topics might seem daunting and overwhelming, he always shows us it is not as scary as it seems and always encourages us.

He is very knowledgeable. In lecture he gives funny anecdotes and examples. His first question in exams are very fun too. He engages the audience and he often interacts with them. He tries to incorporate games into his lectures so they are fun. Overall he is very experienced and made a difficult module very fun.

Very engaging, knowledgable and enthusiastic

Fun, relatable, and always looking out for his students. He tries to incorporate real life examples into his lectures, and make things interesting by inserting jokes to keep us awake.

He teaches concepts in a fun and easy to understand manner.

Prof Aaron is very interesting in his delivery of the lecture and he is very knowledgeable (of course) in the subject he's teaching. He exudes confidence in the topic he's teaching and also allows the students to do our own thinking. Much like he said so in his own course for teaching, he allows the students to take the stage and do active learning, and he also asks interesting questions to keep the students engaged. He has one of the highest lecture attendance rates I have seen so far, even for people assigned to the e-learning classes.

\_

He is very friendly and humourous. He integrates games and activities into his lectures and I find his jokes very entertaining.

He is a very engaging Prof and gives examples or conduct activities to give students a better understanding on concepts

very interesting classes and engagement with students. it makes classes interesting and look forward to attending his lectures

I think Prof Tan is very enthusiastic and passionate about the material he teaches and that enthusiasm effectively translates to a good learning experience. I have fun learning from him, which also leads to a better understanding of the material.

He's passionate about the subject and he shares his passion to all students in an engaging and exciting way.

Very enthusiastic and is constantly thinking of ways to engage us in class

He clearly tries to make his lectures engaging and light-hearted. That helps the tough lectures feel a little less painful.

funny

Really engaging and always tries to interact with the students. Also tries to come up with interesting examples or problems for the topics to be taught before providing us with the content.

patient funny

Prof Aaorn is extremely funny and engaging, explaining difficult concepts well, and most importantly, sparking interest in the subject. He knows exactly how to engage his students and he makes sure we understand all the concepts Passionate and engaging lecturer He can express concepts well. His lessons are always engaging Engaging lecturer, clear and concise explanations. Very passionate professors that tries to makes lectures and new content fun and interesting, and holds the attention of the students very well Prof Aaron is a very dedicated and caring professor that always goes the extra mile to ensure that we understand course materials. Prof Aaron is very encouraging! He believes in the potential of every student, and explains concepts clearly. While this module can be tough, he encourages us to try our best He really cares about his students, and puts in effort to make lectures interesting and exciting NIL Amazing all around prof he cares strongly about his students and has great passion in the subject NA Always makes the lectures interesting and entertaining because of his good use of examples and jokes. Explains really well, and have many interactive activities to keep us interested in the module. He is really passionate about the subject and enthusiastic during lectures. It is always a pleasure to learn under him. Explains concepts clearly, frequent engagement through telegram He can control the class well, and can explain all the concept relevant to the topics well. NIL He's really good at creating engaging lectures and in explaining all concepts. The lectures are one of the rare occurrences whereby it is more comprehensive than many video materials found online. Explaining clearly FANTASTIC command of the subject matter. Cares for our well being and is patient with us when we make mistakes. He teach very good He is very excited when he teaches. You can feel he cares and has fun teaching and I love that. Efficiently explains hard topics. Engaging, fantastic teacher. Very clear and makes use of many examples. Making concepts much more interesting by introducing the origins of the theorems and funny/interesting problems. He has made lectures much more lively and fun. explain in a clear and concise manner, fun and engaging, passionate and enthusiastic, aiken dueet Engaging and understandable. great humour and engaging None enthusiastic and engaging, often involving students in live demonstrations (for both online and in person), explains concepts clearly using examples, periodically asks if we have questions nil Good Organised and deep understanding of the crouse related area I like how he tries to engage students, be it the mini games he played in the lectures, or the funny slogans like "Aiken Dueet". He is very passionate about the materials he teaches and have genuine interest in the subject, and thus, you can feel that he tries to make his students like the subject too. He continuously motivates students and encourages them in the tough journey ahead, that is CS1231s. Overall, he is just a great prof! Knowledgeable and experienced He explains very nice He is a great professor that cares about student development and learning

Na

He makes lessons fun and explains the materials well.

He is really engaging

funny n engaging n can explain well

He explains things very well

Humorous and explains concepts well.

Prof Tan is a clear communicator, who can provide relevant examples and humour to lighten up very dry topics.

Explains content very well. Makes lectures and learning very fun and engaging.

He is soooo good at teaching

explains concepts well and is very entertaining.

Funny and engages the students well

Teaching style

He is very funny and can make harder concepts easier to understand.

He often extends the concepts to the outside world, which makes the lectures interesting.

Very passionate about the subject. Also includes interesting pop quizzes/ anecdotes in lectures that are related to the content and help us understand a lot better.

He's a very engaging professor and always makes the lectures interesting and fun to watch.

Very engaging, and explain things in a very easy to understand way. Use of real-life examples or situations to explain certain concepts such as the driver's license for vacuous truth of universal statements allowed to appreciate and understand the new concepts better.

Fun

Enthusiasm and positivity

Ability to engage his students during mass lectures

He always gets the class to be very engaged in his lessons and explains concepts rigorously.

able to make lectures and lesson much more interesting, very good at explaining and delivering concepts to students

He teaches effectively and understands all the contents really well. He is also humourous that makes it lectures really interesting.

Very enthusiatic

He manages to convey very foreign concepts in a way that is understandable to the students, and eases everyone into the subject as much as he can to make sure we can absorb the content. He also frequently engages everyone in polls or activities to demonstrate key concepts, and it helps me retain the information better. Incorporating jokes into the lectures also helps to keep the atmosphere fresh with such a content–heavy module.

- Focused on helping students whenever and in whatever way possible, tailored to each student's aptitude level.

- Superb understanding of the lecture material, and capable of providing extensive feedback whenever asked conceptual or even very specific questions.

- Exceptional at designing the lectures to be as engaging as possible. They kept students well-informed, and also entertained so as to make the material easier to digest.

Prof is very very encouraging and supportive. He is able to make us pay attention during class with his jokes and stories. He really explained the basics of propositional logic well

The ability to think on the spot

Being funny

Extremely good lecturer and very engaging. His explanations are really good and he is so funny.

very engaging, open to questions, explained concepts well, helped address my concerns regarding exams

Can engage students and teach very difficult concepts effectively

He has a large focus on student engagement during lectures, and is able to make the lectures interesting while insightful.

He is very engaging and you can tell he genuinely loves the subject because it comes across in his teaching.

He makes the class enjoyable

Prof Aaron can keep all of his lectures interesting and engaging even if the material is dry

enjoyable lectures, approachable and helpful

Fun and chill prof hahaha, understands where students are confused and explains further

Great lecturer, difficult concepts were so well explained with visuals.

Awesome at teaching. Has a wholesome attitude and you can see that he enjoys what he teaches. Cares about his students and tries his best to engage them during lectures and make them less boring.

Very enthusiastic, very energetic, very funny professor. He is my role model.

Your lectures are informative and engaging, which makes the learning process enjoyable. I've particularly benefited from the structured approach you take to complex topics. However, it would be incredibly helpful if the lectures could incorporate more nteractive elements, such as quizzes or group discussions, to enhance our understanding and retention of the material. Additionally, supplemental materials or recommended readings would be greatly appreciated to further explore the subject matter. Your dedication to teaching is truly inspiring, and these suggestions are intended to further enrich our learning experience.

His exams make me feel sad. Maybe he just don't want it to be too easy to score well if not we won't appreciate the concepts, just like how everyone passes driving test with borderline passing marks.
He doesn't care about like graphs with zero nodes because they're not interesting, and yet empty relations on non-empty sets are interesting? Okay
Rushes some of the content and glosses over some details, especially near the end of the semester which made some parts confusing

make the midterms more 'usual' and doable – closer to pre–2023 papers, as i felt that it deviated greatly from that . MCQ was hard and confusing and tricky, while open ended was too simply and lacked proofs that we had spent so much of the lecture and tutorial preparing for. The questions on sets and relations were rather confusing and tricky, requiring a hugely disproportionate amount of time to understand the question and what it was asking rather than applying concepts or doing calculations or logical deductions.
