Subject: Post-doc open

Dear Professor Wong Lim Soon,

The BioInformatics team of LIX (Computer Science Research Lab at the Ecole Polytechnique <http://www.inria.fr/recherche/equipes/amib.en.html>), headed by Mireille Régnier (DR INRIA-Saclay) , offers a 1 year postdoctoral position starting November 2009.

The research themes of interest are the following:

1. Combinatorics of patterns and complex motifs in sequences with applications to function and structure. Pattern matching and next generation sequencing.
2. Simulation of cell metabolism with applications to oncology.

The candidates should send a detailed CV, a research project and a list of potential references to: steyaert@polytechnique.fr <<mailto:steyaert@polytechnique.fr>> and mireille.regnier@inria.fr <<mailto:mireille.regnier@inria.fr>>

Thanks for your help

Mireille
