Speed Dating Guidelines/Description

Speed dating is a formalized matchmaking process whose purpose is to encourage people to meet a large number of new people. Guys and girls will rotate to meet each other for a series of short 3 minute "dates" to interact and get to know each other. At the end of the event each participant will fill out a form to be handed to the organizers stating any of the guys or girls whom you have interest in for a follow up date. We the organizers will compile the forms and contact any participants where there is mutual interest and leave it up to you to take the next step.

Please note that there is no commitment required for a follow up date and that throughout the event you are not allowed to ask for or exchange phone numbers/contact details. The short time frame of each date protects participants from being stuck with any mismatches (but of course all of our participants will be well groomed eligible candidates!).
