## **Abstract**

Brewmaster Alex will give us a tour through the micobrewery of Paulaner in Singapore. Paulaner is one of the most famous beers around the world. He will explain the brewing technique to us and summarize the German Brewery Law which requires brewers to use no other ingredients than hop, malt, water, and yeast.

Afterwards we will have a taste of the original quintessential Oktoberfest beer brewed freshly on the premises. The event is also featuring Scharivari Sextett, a typical Bavarian music band, and German beer girls flown in from Munich. We will also enjoy some delicious food which can be chosen individually.
