

Imperial College Alumni Association of Singapore

ROS Regn. 0106/1977

Brew-master Alex Buchner explaining how the Paulaner beer is brewed according to the strictest and oldest regulations of brewing, as set out in "The German Law of Purity", issued in Bavaria in 1516 by Duke Wilhelm.

Happy Hours

Members spent a delightful evening at Paulaner Brahaus Microbrewery on 30 May 2007. After an informative guided tour, they enjoyed each other's company over freshly brewed beer from the microbrewery on site and delicious German food.

Singapore's only German microbrewery & restaurant, with URL: www.paulaner.com.sg.

The yeast added in the fermentation process stays in the beer, and this contains vitamins. Cheers to good health!

Paul Brendeis (Hon. Secretary, ICAAS), who organized the event, seen here with Alex Buchner and tour participants. A total of 17 ICAAS members, IC alumni, and guests were present.

Having a good time, catching up, networking and making new friends
