MARTIN PARR RETROSPECTIVE

See this extraordinary collection of works by one of the world's leading photographers, Martin Parr.

Martin Parr's work over the last 35 years has provided us today with a unique and idiosyncratic portrait of a strata of British society and the tremendous changes it has undergone in that period. He is a remarkable observer of British life, his eye picking out the everyday telling details and his fascination with human foibles providing us with a vivid, sometimes nostalgic, often times raucous and uncomfortable view of how we live today.

The exhibition is on from 6 July to 29 July at the City Hall (old High Courts), opposite the Padang.

The exhibition is open from Tuesday to Sunday from 11am to 6pm, closed on Monday
