Class Size = Invited; Response Size = Responded; Response Rate = Response Ratio

### A. GUIDELINES FOR INTERPRETING THE REPORT

The teacher evaluation report is for developmental purposes and is meant to help identify strengths and areas for improvement. Please consider the following recommendations that will aid in interpreting the results:

1. Examine the report by taking note of patterns in order to consider how best to act on the feedback your students have taken the time to provide. Use the reflection section at the end to reflect upon how you might act on the feedback.
2. These evaluations stem from student perception and thus constitute one source of evidence among others as to the quality of your teaching. Any response to the feedback should be based on the most representative results rather than on outlying responses.
3. Upon getting a general sense as to what has gone well, and which areas may require attention and improvement, it is important to drill down to the related questions. These questions can help guide future action if feedback from students suggest areas for improvement.
4. Keep both the likert scale and written comments in mind while reading through the report. High scores (4+) suggest student consensus indicating a strength. On the other hand, low scores (2-) should be considered as an area that requires immediate developmental focus based on student feedback.

**D. STRENGTHS**

**What are Leong Wing Lup, Ben's strengths?**

Comments
nil
Prof. Ben engages his students with innovative teaching methods that make learning exciting and interactive. His clear communication ensures that we can learn easily and effectively. He also cares about each student's individual learning needs.
His energy
very patience and he want us to fully understand the lecture and put so much effort in his teaching
Professor's teaching style is very interesting.
He always teach us that when solving problems, we should think how to solve the problems not finding the answer directly. He improve my thinking level.
Enchanted in programming
Prof Ben is always happy explains which the student does not understand
He can explain theories which is complex into easy and understandable ones.
He can teach us, the students, variety of different approach to the procedure that is what I admire the most, even though I cannot comprehend everything stages he said at that moment, but I get them back while watching the record. Every procedure he taught is advanced for me, so the lecture all he taught are important for me.

## E. AREAS FOR IMPROVEMENT

What improvements would you suggest to Leong Wing Lup, Ben?

Professor sometimes talks a little fast.
Sometimes he speak fast, sometimes he speak normal. He should always speak in normal pace.
Good
Nothing since he is a very experienced teacher. He just need to keep doing what he has been doing.
I personally think he talks so fast, but it could be my own problem.

## F. SELF-REFLECTION

1. When comparing these results to the previous year's results, what areas have shown improvement?
2. What areas remain to be improved and what are the necessary steps / actions to do so?
3. Are there colleagues who could potentially guide me?
4. Are there issues that require departmental or institutional support?
