CS3233 Homework 1 Bonus Question

Time: 10 minutes ? marks

- Consider the following **C** program:

  ```
  #include <stdio.h>

  int main(void) {
      printf("%d\n", /*/*/0*/**/1);
      return 0;
  }
  ```

  – Add one line to the program such that it outputs 2 instead. [?]

  – Submitting this bonus question will instantly give you some bonus marks regardless of whether your answer to the above question is correct. [?]
