Subject: TAKE NOTE - AY2021/2022 NUS Computing Exams

Dear SOC students,

As we are approaching the exam season, please take note of below procedures should you be tested Covid positive:

1. Update your health protocol (P1 or P2) in uNivUS. Please refer to [circular 35](#) for more information.
2. Inform both your module coordinator and socug@comp.nus.edu.sg of your health status as soon as possible. Please remember to attach a copy of your fast and easy (FET) history submission in your email.
3. If you are feeling well to continue with exams while in isolation, online exam option with zoom proctoring will be made available to you for Computing modules.
4. If you are unwell and unable to proceed with exams, please file in a Special Considerations application, for more details, please refer to <https://myportal.nus.edu.sg/studentportal/academics/all/examination-directory.html>

Lastly, we would like to remind all students that the online option is only for students who are tested COVID positive within 07 days prior to modules' exam dates. It will not be offered under any other circumstances.

For further clarifications, please email us at socug@comp.nus.edu.sg. Thank you.
