NUS School of Computing
Master of Computing – Computer Science Specialisation
(with effect from August 2018 Intake)

Preclusion:

Please take note that the following courses are **precluded** from each other:

CS5421 Database Applications Design and Tuning	CS4221 Database Applications Design and Tuning
CS5446 AI Planning and Decision Making	CS4246 AI Planning and Decision Making

Computer Science (CS) Specialisation Courses	
CS4249	Phenomena and Theories of Human-Computer Interaction
CS5218	Principles of Program Analysis
CS5223	Distributed Systems
CS5228	Knowledge Discovery and Data Mining
CS5229	Advanced Computer Networks
CS5232	Formal Specification and Design Techniques
CS5233	Simulation and Modelling Techniques
CS5234	Algorithms at Scale
CS5239	Computer Systems Performance Analysis
CS5250	Advanced Operating Systems
CS5340	Uncertainty Modeling in AI
CS5421	Database Applications Design and Tuning
CS5446	AI Planning and Decision Making
