02

Modules

Let's talk about modules

Link to slides:
tinyurl.com/CSAcadDay2021

What modules can I take?

CS 110 1S/ CS2030S

CS1101S is a must
CS2030S if exempted

UE Modules

Might be too early
unless you have a
second major/minor

CS 123 1S

Prerequisite to many
other modules

IS 110 3

Take this with a friend,
I suggest to take in Y1

Math/ Science

MA1521/MA2001 are
unlocks many modules!

GE Modules

You might wanna clear them
while you have S/Us

What specialisation should I take?

Explore Introductory Modules

Most Specialisations
offer introductory
modules.

E.g. Intro to AI, Intro to
Security...

Go for hackathons/ Other opportunities

Learn & Explore beyond
University
e.g. Shopee Code
League, CODE_EXP,
Orbital (CP2106)

Speak to seniors

If you need perspectives
on AI/Security, you can
speak to me :)

03

Orbital?

Not your s&p orbitals in Chemistry

Link to slides:
tinyurl.com/CSAcadDay2021

What is Orbital (CP2 10 6)?

- Orbital is 4 MC module that SOC students take as part of their Unrestricted Electives (UE)
- This module is taken over the summer vacation (Freshmen will usually take at the end of year 1)
- For this module, you DO NOT need to pay for Special Term fees
- Taken as a pair

What I did for Orbital

Link to slides:
tinyurl.com/CSAcadDay2021

What will be a good idea?

- My suggestion will be to think of an idea your pair is passionate about, and use modern frameworks to implement them!
- Modern frameworks will include Mongo, Express, Azure, Angular, React, Node, Unity, Unreal Engine etc...
- These development skills (aka tech stack) will help you get your internships!

04

Internship

I want googul or tiktok

Link to slides:
tinyurl.com/CSAcadDay2021

What I am doing now

- AI Intern at Defence Science & Technology Agency
- Research on Multi-Agent Reinforcement Learning
- Analogous to OpenAI 5, who was able to defeat PRO players consistently in DOTA 2.

How I secured my Internship

05
