Who are we?

About Us

Established when the NUS School of Computing (SoC) gained independence as a separate faculty in 1998, the NUS Students' Computing Club is the **official faculty club** and **sole union representative of all undergraduates in SoC.**

More About Us...

We aim to:

- Be the voice of students in SoC
- Organize Student Life activities and events for SoC students
- Foster strong bonds with other SoC SIGs

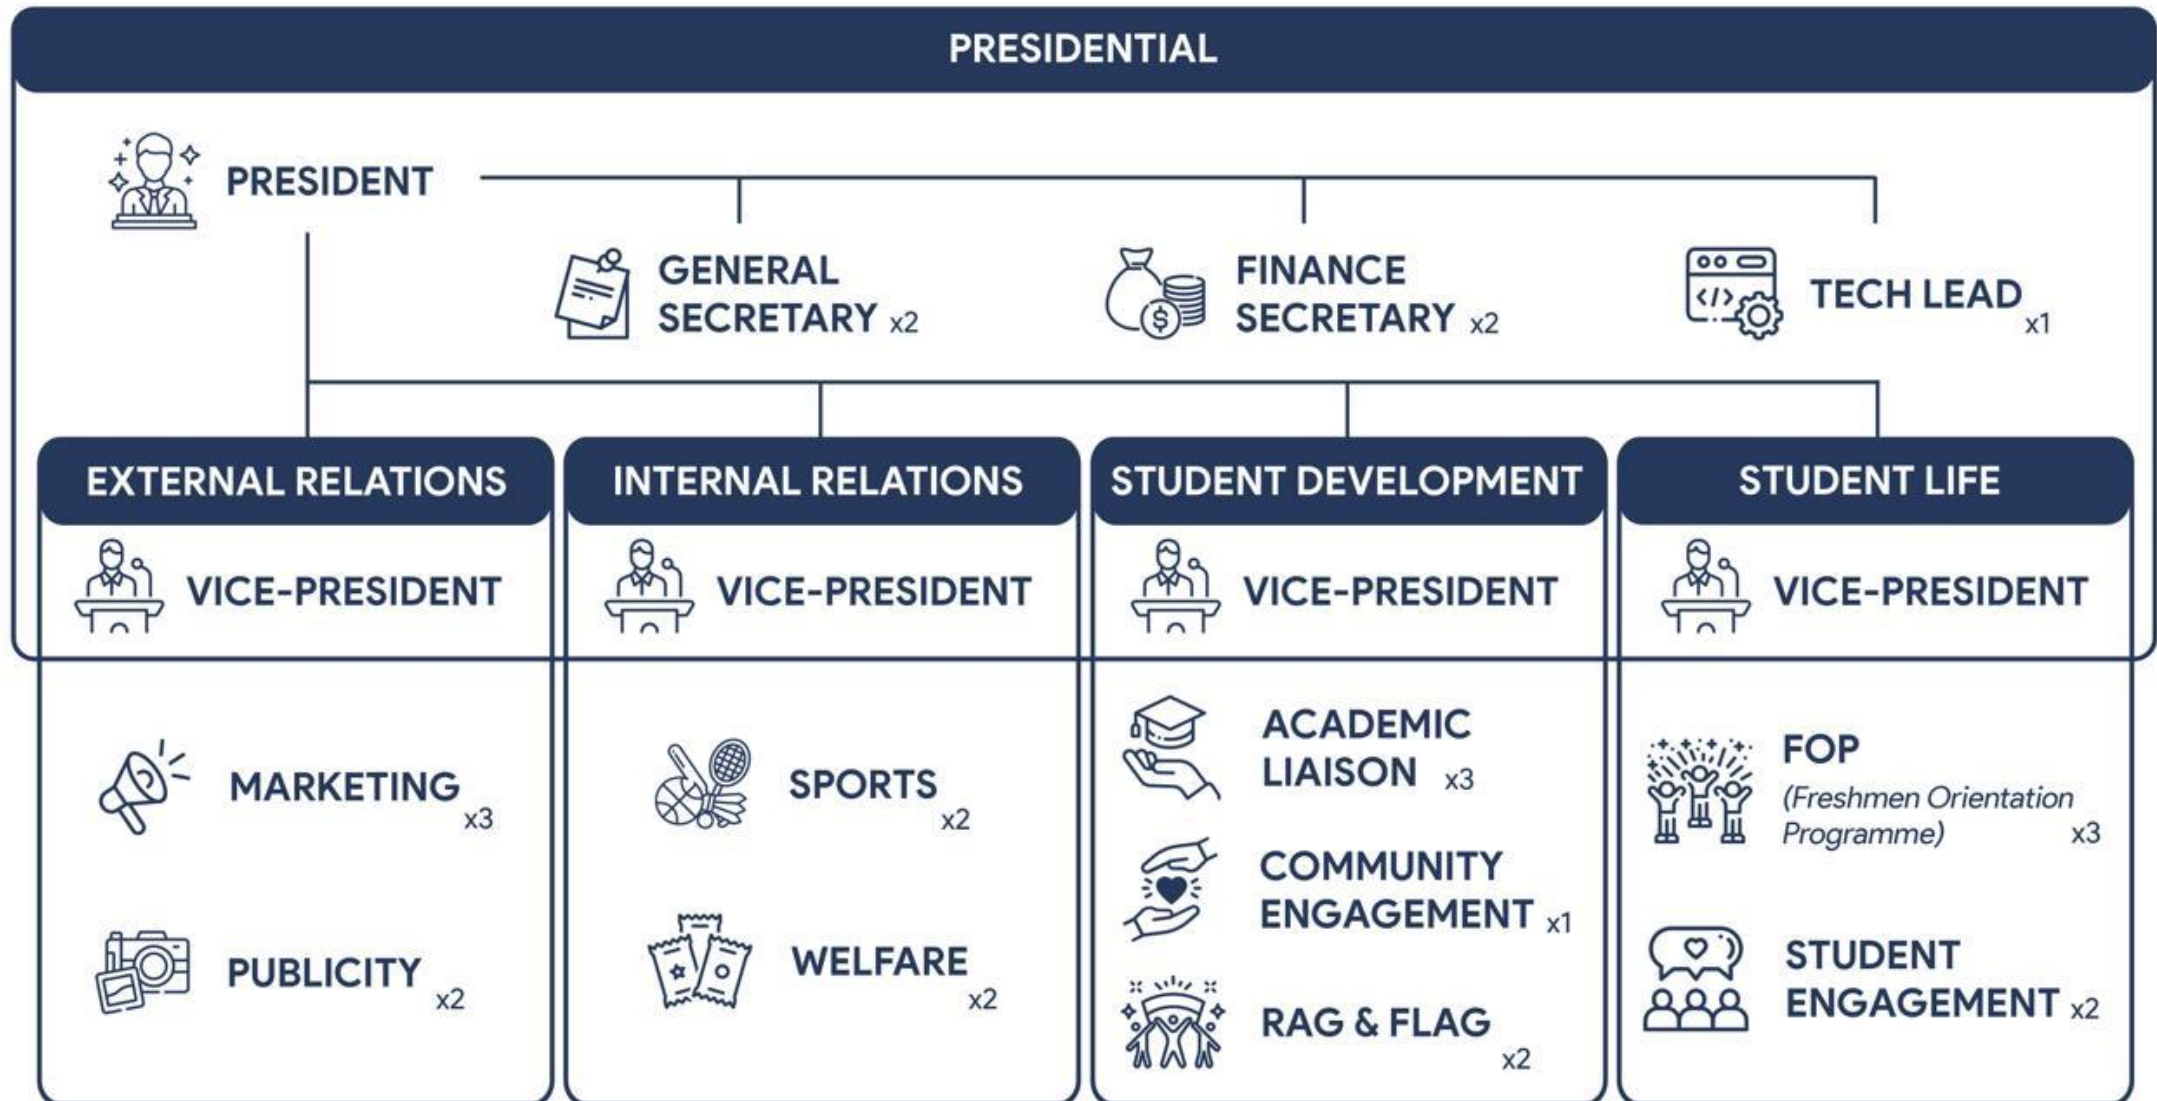

Ultimately, we hope to organize events that make university life just a bit better for everyone 😊
