Archive

Welcome to the NUS Hackers Archive! This is a collection of resources we've compiled over the years, including resources and recordings of our past workshops and talks. We hope you find them useful!

Feel free to use the resources for your own workshops too, but please credit NUS Hackers if you do so.

You can find many more recordings on our [YouTube channel](#) too.

Programming Languages

- Introduction to Rust: [resources](#) | [recording](#)
- Introduction to Javascript: [resources](#) | [recording](#)
- Introduction to Python: [resources](#) | [recording](#)
- Introduction to Haskell: [recording](#)
- Introduction to Elixir: [resources](#) | [recording](#)

Frameworks

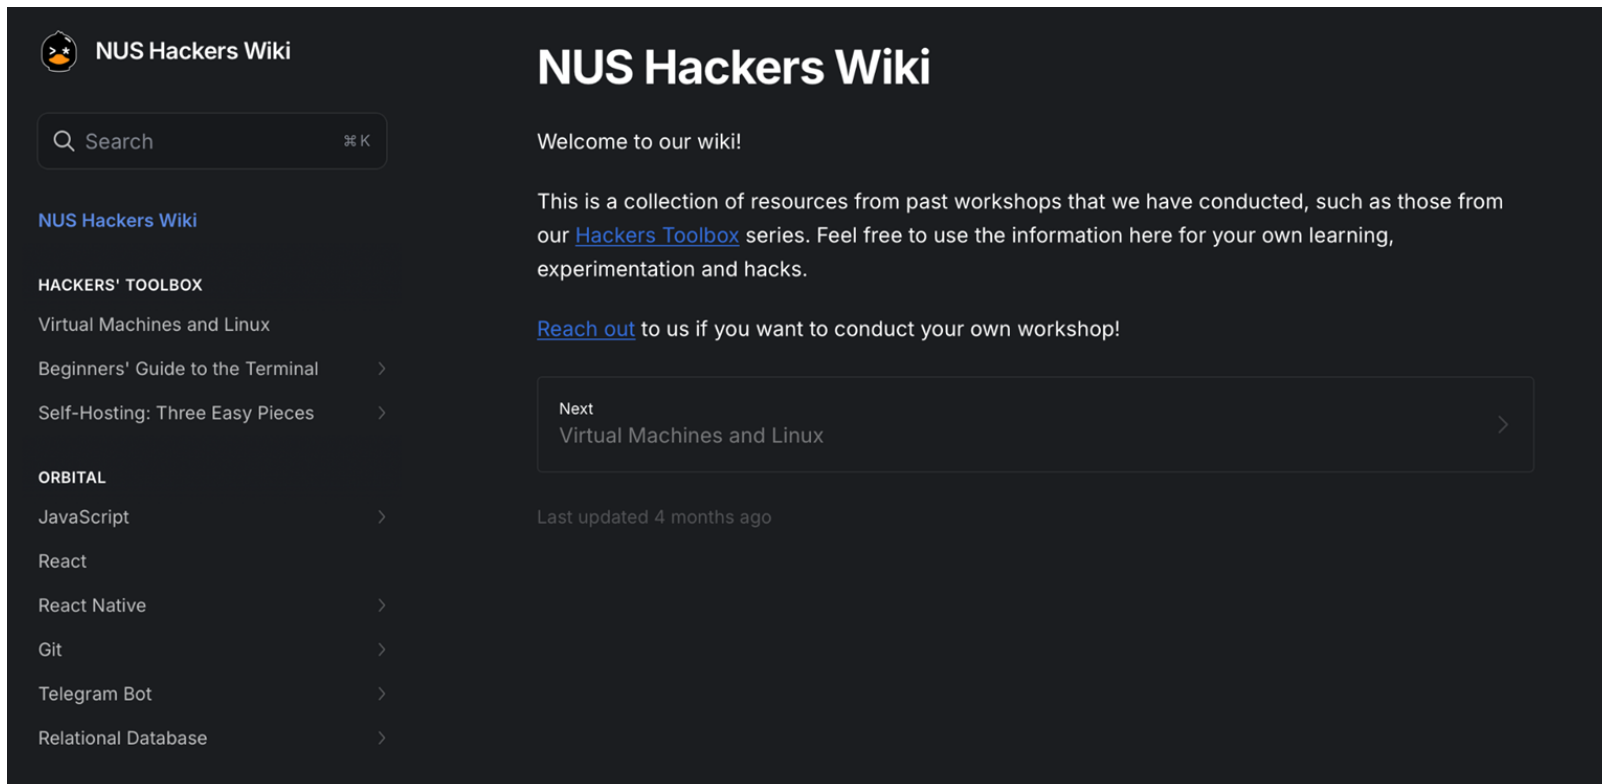

- Introduction to React: [resources](#) | [recording](#)
- Introduction to Flask: [resources](#) | [recording](#)

Tools

- Introduction to Vim: [resources](#) | [recording](#)
- Introduction to Git: [resources](#) | [recording](#)
- Advanced Git: [resources](#) | [recording](#)
- Introduction to LaTeX: [resources](#) | [recording](#)
- Introduction to Telegram Bots: [resources](#) | [recording](#) | [handout](#)

AI and ML

- Introduction to Machine Learning: [recording](#)

The screenshot shows the homepage of the NUS Hackers Wiki. On the left is a dark sidebar with a search bar at the top, a navigation menu with categories like 'HACKERS' TOOLBOX' and 'ORBITAL', and a list of articles with right-pointing chevrons. The main content area has a large title 'NUS Hackers Wiki', a welcome message, a paragraph of introductory text, a 'Reach out' link, and a 'Next' navigation button pointing to 'Virtual Machines and Linux'. A footer note indicates the page was last updated 4 months ago.

NUS Hackers Wiki

Welcome to our wiki!

This is a collection of resources from past workshops that we have conducted, such as those from our [Hackers Toolbox](#) series. Feel free to use the information here for your own learning, experimentation and hacks.

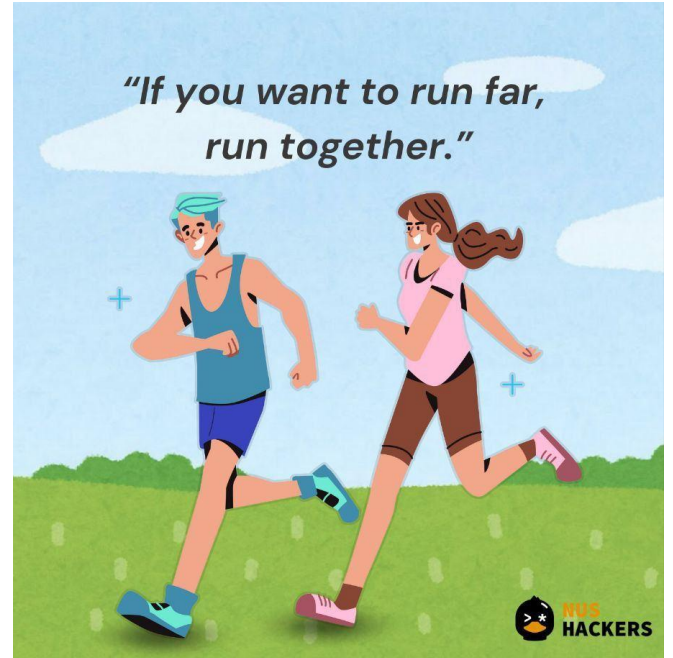

[Reach out](#) to us if you want to conduct your own workshop!
