A. GUIDELINES FOR INTERPRETING THE REPORT

The teacher evaluation report is for developmental purposes and is meant to help identify strengths and areas for improvement. Please consider the following recommendations that will aid in interpreting the results:

1. Examine the report by taking note of patterns in order to consider how best to act on the feedback your students have taken the time to provide. Use the reflection section at the end to reflect upon how you might act on the feedback.
2. These evaluations stem from student perception and thus constitute one source of evidence among others as to the quality of your teaching. Any response to the feedback should be based on the most representative results rather than on outlying responses.
3. Upon getting a general sense as to what has gone well, and which areas may require attention and improvement, it is important to drill down to the related questions. These questions can help guide future action if feedback from students suggest areas for improvement.
4. Keep both the likert scale and written comments in mind while reading through the report. High scores (4+) suggest student consensus indicating a strength. On the other hand, low scores (2-) should be considered as an area that requires immediate developmental focus based on student feedback.

D. STRENGTHS

What are AYUSH MISHRA's strengths?

Comments
Provides pertinent and personalised feedback. Injects his passion for the discipline into lessons. Approachable and relatable.
Articulates convincing explanations with clarity.
Tries to explain clearly and keeps asking people to provide answers to keep us engaged.
Dedicated, always willing to help. Spends a lot of time ensuring everyone has grasped a certain concept and spends a lot of extra time after classes to clarify any doubts.
Illustrates concepts well with diagrams
He goes the extra mile to offer assistance to students in need of help with the topic. He has also worked hard to offer students assistance when we face difficulty with the subject and provided us with different insights to the various problems we faced during the course.

E. AREAS FOR IMPROVEMENT

What improvements would you suggest to AYUSH MISHRA?

Comments
Plan the lesson beforehand to prevent last minute panic having to derive the solution on the spot. Also focus more on questions asked and new, related problems rather than just go through the tutorial questions since chances are, we would have generally understood how to solve as we would have had completed the tutorial online before coming for the lesson.
Sometimes can be a bit long winded but generally an excellent example of what a tutor/teacher should strive to be.
Try not to run over the time given for the lesson
Be more comfortable and engaging when speaking to a large crowd of students. He does a good job in one to one interaction.

F. SELF-REFLECTION

1. When comparing these results to the previous year's results, what areas have shown improvement?
2. What areas remain to be improved and what are the necessary steps / actions to do so?
3. Are there colleagues who could potentially guide me?
4. Are there issues that require departmental or institutional support?
