## **TEACHER REPORT**

Name of Teacher	Kan Min-Yen
Course	CS4248-Natural Language Processing (TUTORIAL)
Academic Year/Sem	2024/2025 - SEM 2
Department	COMPUTER SCIENCE
Faculty	SCHOOL OF COMPUTING

Raters	Student
Responded	15
Invited	39
Response Ratio	38%

Note:

Class Size = Invited; Response Size = Responded; Response Rate = Response Ratio

# A. GUIDELINES FOR INTERPRETING THE REPORT

The teacher evaluation report is for developmental purposes and is meant to help identify strengths and areas for improvement. Please consider the following recommendations that will aid in interpreting the results:

- 1. Examine the report by taking note of patterns in order to consider how best to act on the feedback your students have taken the time to provide. Use the reflection section at the end to reflect upon how you might act on the feedback.
- 2. These evaluations stem from student perception and thus constitute one source of evidence among others as to the quality of your teaching. Any response to the feedback should be based on the most representative results rather than on outlying responses.
- 3. Upon getting a general sense as to what has gone well, and which areas may require attention and improvement, it is important to drill down to the related questions. These questions can help guide future action if feedback from students suggest areas for improvement.
- 4. Keep both the likert scale and written comments in mind while reading through the report. High scores (4+) suggest student consensus indicating a strength. On the other hand, low scores (2-) should be considered as an area that requires immediate developmental focus based on student feedback.

## **B. NOMINATION FOR TEACHING AWARDS**

I would like to nominate Kan Min-Yen for teaching awards

### Comment

- I actually like attending his tutorials. I always learn something new from attending tutorial.

- Brilliant professor
- Best teacher ever

## C. STUDENT FEEDBACK SCORES

## (i) Rating Score

Question	Average Score (TEACHER)		Department Average (COMPUTER SCIENCE)		Faculty Average (SCHOOL OF COMPUTING)	
	Mean	Standard Deviation	Mean	Standard Deviation	Mean	Standard Deviation
Overall, the teacher is effective.	4.6	0.6	4.3	0.8	4.2	0.8

## (iii) Scale Distribution of Responses

### The teacher engaged me in useful interactions that have enhanced my learning.

#### The teacher's attitude and approach encouraged me to think and work in a creative and independent way.

#### The teacher cares about student development and learning.

## (iv) Rating Scores vs. Gender

Question	М	F	Overall
The teacher has enhanced my thinking ability.	4.6	5.0	4.7
The teacher provided timely and useful feedback.	4.6	5.0	4.7
The teacher has increased my interest in the subject.	4.7	5.0	4.7

## **D. STRENGTHS**

## What are Kan Min-Yen's strengths?

#### Comments

Very friendly teaching style, engaging teaching interactions through Kahoot interactions/tutorial question group discussions, very clear explanations of concepts, and engages deep thinking questions to further understanding

he is passionate and knows the content well. his kahoot quizzes really help me revise the lecture content and also motivate me to be more prepared for lessons so that I can do the quiz well. he also gives us opportunities to work in groups and get to know other tutorial mates which is a very fun an engaging way of learning

Prof Kan encourages the students to try the problems and discuss first.

He is also very knowledgeable about the topics.

Great at explaining, breaks things down amazingly

engaging teaching

## E. AREAS FOR IMPROVEMENT

#### What improvements would you suggest to Kan Min-Yen?

#### Comments

I feel that the breakout rooms can be a bit long at times, causing the tutorial session to stretch slightly longer than usual. N/A

# **F. SELF-REFLECTION**

- 1. When comparing these results to the previous year's results, what areas have shown improvement?
- 2. What areas remain to be improved and what are the necessary steps / actions to do so?
- 3. Are there colleagues who could potentially guide me?
- 4. Are there issues that require departmental or institutional support?
