Final Report for Project Name

Student 1[1], *Student 2*, *Student 3*, *Student 4*
Department of Computer Science
Michigan State University

Customer: CustomerName, Company

Software Engineering Capstone, CPS479
Instructor: Dr. B. Cheng
Teaching Assistant: E. Y. Wang

Spring 1996

[1]Project Manager

Contents

Chapter 1

Project Description

1.1 Motivation

1.2 Overview of System Design

Chapter 2

Techniques Learned and Applied

2.1 Methods and Processes

2.2 Tools

Chapter 3

Conclusions and Future Investigations

3.1 Functionality Limitations

3.1.1 System Limitations

3.1.2 Properties Facilitating System Use

3.2 Reflections of Project

3.3 Future Investigations

Appendix A

Changes and Addendums to Deliverables

A.1 Requirements Analysis

A.2 System Design

A.3 Object Design

Appendix B

User Manual

1 Introduction

1.1 Hardware Requirements

1.2 Software Requirements

2 Functionality Description

3 User Scenarios

4 Installation Procedure

5 References
