Subject: postdoc position

Dear Prof. Wong,

I have two postdoc positions available, one in my group in biology at Boston College which concerns an NSF funded project concerning aspects of RNA secondary structure as well as estimating gene chip cross-hybridization noise. Another position is in the computer science department of the prestigious Ecole Polytechnique of Paris. Funded by Digiteo, I am in Paris 2 months per year and the postdoc will work closely with me and Jean-Marc Steyaert on an RNA gene finder. The Ecole Polytechnique position is described here:

<http://www.lix.polytechnique.fr/~clote/digiteo>

Please spread word about both positions.

Best wishes,
Peter
